

Our client is an entrepreneurial, independent private equity investment company with an institutional approach and a focus on long-term investments. We are looking for the headquarter in Hamburg as soon as possible for

Senior Finance Manager m/f/d

Description of opportunity, main tasks and role

As active representative of the shareholding company you will challenge the operating businesses (portfolio companies) to achieve ambitious goals. This role offers a unique opportunity to join a newly founded investment company whose heritage goes back 75 years. In detail:

- Understand the market and the drivers of the underlying businesses, collaborate with their management to enhance supervisory and shareholder reporting
- Adopt a shareholder mindset towards the controlling entities
- Conduct regular reviews of the financial performance of the operating businesses and provide an impartial assessment
- Act as strong sparring partner for the CFO and other senior management of the operating business
- Provide tangible insights into the financials and strategy executions as an advisor to the supervisory board of the portfolio companies, and prepare regular and ad hoc reports
- Opportunity to assume the role of Deputy Head of Finance

Your Qualification

- University degree in Business Administration, Finance, Economics, or MBA
- At least 10 years of experience as a controller
- Business fluent English skills

Your Personality

- Exceptional interpersonal skills developed through experience in fast-paced, deadline-driven environments
- Deep and demonstrable senior-level experience in finance within relevant industries
- Proactive self-starter capable of adapting to shifting priorities and driving results
- Meticulous attention to detail and precision in all tasks
- Outstanding communication skills, paying close attention other's input, asking pertinent questions, and excels in delivering communication tailored to different audiences
- Prior management experience advantageous but not mandatory
